

French Fries Are Magical

Des Ark

Whatever makes you happy
I know this world don't make it easy
I can be sweet babe or I can leave you all alone
Whatever makes you want me
I'd rather that than being lonely
I can be faithful or I can be your one-night girl
So tell the truth when was the last time
You found someone who let you unwind
You knew they'd leave you if you were ever unkind
And in the wake of the last two count them
Who so carefully undressed you
And if you'd let them
You know that they would love you
Say,
why can't I believe
Until you believe in me
Why can I not breathe
Until you breathe into me
