Deja Vu

Imperial State Electric

Ain't it funny
You walk into the room
Never been in town
But you can taste the dÃ©jÃ vu

Hey baby
It's all about your eyes
The clones and dopplegangers
They make you think twice

What's that in your smile
My memories going wild
Right now - I'm already sold

I have seen the scene unfold
No matter what you do
It's written in my dÃ©jÃ vu

Where the wind blows
There ain't no free will
Better watch the shadows
Or they'll move in for the kill

Hey baby
It's all about your eyes
They're saying come on
And I know they wont stop twice

What's that in your smile
My memories going wild
Right now - I'm already cold

I have seen the scene unfold
No matter what you do
It's written in my dÃ©jÃ vu
