

# Never Gonna Die

Zara Larsson

Do you recognize this sound anymore?  
Do you recognize the sound of my voice?  
Does it get drowned in the noise?  
I wonder if you've found what you want?!  
Maybe I'm telling myself a lie, when I say  
I'm the only one still on your mind  
And you will be mine someday.  
I feel you when I'm in the dark,  
I still don't know how to move on.  
I'm sickened of love but I feel in my gut,  
Yeah I know that you're the one. Used to say forever but it's never now.  
Though we'd be together but we separate now.  
You are my first and that's why it hurts  
The fire that burns, it ain't ever gonna die.  
No, it ain't ever gonna die.  
It ain't ever gonna... Is it even worth the time anymore?  
It's different this time, ain't it, boy?  
'Cuz that's always what you say, what you say  
But I'm better at the games that you play.  
I'm taking back what's mine,  
'Cuz you said it's forever.  
Standing the test of time, if we dare stay together.  
I ain't gonna wait in line, I'm patient but I'm not blind.  
We're young so we got the time to make it right, alright. Used to say forever but it's never now.  
Though we'd be together but we separate now.  
You are my first and that's why it hurts  
The fire that burns, it ain't ever gonna die.  
Never thought I'd ever say we're strangers now.  
All the love we had has turned to hate somehow.  
You are my first and that's why it hurts  
The fire that burns, it ain't ever gonna die.  
No, it ain't ever gonna die,  
No, it ain't ever gonna die  
Never gonna die, never gonna die, no... Here we are in this place again,  
Somewhere between eternal love and no longer.  
And if I never see your face again,  
I hope you know that there will never be another like you. Used to say forever but it's never now.  
Though we'd be together but we separate now.  
You are my first and that's why it hurts

The fire that burns, it ain't ever gonna die.  
Never thought I'd ever say we're strangers now.  
All the love we had has turned to hate somehow.  
You are my first and that's why it hurts  
The fire that burns, it ain't ever gonna die.  
No, it ain't ever gonna die,  
No, it ain't ever gonna die.  
You are my first and that's why it hurts  
The fire that burns, it ain't ever gonna die.
