

Demolition Rickshaw!

The Aquabats!

There's too many people living in my house

I can see them, I don't know them

And I want them out!

There's too much emphasis on dirt

Who did what for how long?

And where does it hurt?

I think

Oh No! How did it get so far?

Do you! Have to walk with a lean?

Oh no! I need a vacation from waving checkered flags at the Malibu Grand Prix

What are we doing here?

What are we doing now?

What are we doing here?

I know!

Line up the rickshaws

Right down the derby line

Let's all crash into each other

It's demolition time

Line up the rickshaws

Right down the derby line

Let's all crash into each other

It's demolition time

Right now, Right Now!

There's too many choices staring back at me

I can see them

I don't know them,

Now I must leave!

There's too much pressure on my seams

Just drink a little water chemicals attack blood streams

I think

Oh No! How did it get so far?

Do you! Have to walk with a lean?

Oh no! I need a vacation from waving checkered flags at the Malibu Grand Prix

What are we doing here?

What are we doing now?
What are we doing here?
I know!

Line up the rickshaws
Right down the derby line
Let's all crash into each other
It's demolition time
Line up the rickshaws
Right down the derby line
Let's all crash into each other
It's demolition time
Right now, Right Now!

Come on, come on, come on, everybody
Come on, come on, come on, Demolition Rickshaw
Come on, come on, come on, everybody
Come on, come on, come on, Demolition Rickshaw
Come on, come on, come on, everybody
Come on, come on, come on, Demolition Rickshaw

Line up the rickshaws
Right down the derby line
Let's all crash into each other
It's demolition time
Line up the rickshaws
Right down the derby line
Let's all crash into each other
It's demolition time!
