

Open Arms

Ginuwine

Mmm yeah, hey hey, mmm Listen baby, it's been a while since I've talked to you
And you've talked to me
So this song is especially for you and I
Listen closely, baby Why can't we sit by the fireplace and play telepathy
I wanna read your mind and see if you're thinkin' about me
It's been a while since I've sat down and expressed the way that I feel
Girl, but I'm about to cry 'cause it's too late and the pain is real And it's too much to bare
And I'm so awfully scared
I need someone who feels me
I need someone who loves me Why do I stay a while with you?
We can confess what we've been through
To one another, to each other
There's nothing I'll keep from you Why don't you reach and grab my hand?
I'll be the one who understands
You can count on me, I won't do you wrong
I'll be here with open arms You can count on me
I'll be here with open arms The way that you were talking you is telling me that you're just so hurt
You're insinuations are screaming to me that you're really hurt
I wanna be a mechanic and fix everything that is wrong
For you to be crying and feeling so down, baby, that's so wrong And it's too much to bare, yeah
You seem so awfully scared
You need someone who feels you
You need someone who loves you Why do I stay a while with you?
We can confess what we've been through
To one another to each other
There's nothing I'll keep from you Why don't you reach and grab my hand?
I'll be the one who understands
You can count on me, I won't do you wrong
I'll be here with open arms We need no more
We have each other and love will endure
No pain just love
With you that's all I see and I think of And for you I'll give my right and left arm
I'll forever be a man who won't do you wrong
Forever love you that's no question
You're the one, girl, I'm confessing Why do I stay a while with you?
We can confess what we've been through
To one another to each other
There's nothing I'll keep from you Why don't you reach and grab my hand
I'll be the one who understands

You can count on me, I won't do you wrong
I'll be here with open arms You can count on me
I'll be here with open arms
You can count on me
I'll be here with open arms Oh yes, I will, yes, I will
I'll be here with open arms
