

Introduction: Bow And Fire

Blackalicious

Ladies and gents, soul music lovers everywhere
All around the universe
You know as well as I do the things I change
Changing, changing
The day will come, warning, warning I got my arrow, I got my bow
I got my fire and I'm walking through the darkness
Slowly on a tight rope wire
Got my arrow The forces trying, trying, tired
Then the wind is blowing harder
But my power comes from higher
So seek arrow I got my bow, I got my fire
And I'm walking through the darkness
Slowly on a tight rope wire
Got my Arrow
