Teenage Spaceship

Smog

Flying around
The houses at night
Flying aloneA teenage spaceship
I was a teenage spaceship
Landing at nightI was beautiful with all my lights
Loomed so large on the horizon
So large, people thought my windows were starsSo large on the horizon
People thought my windows were stars
A teenage spaceship, a teenage spaceshipAnd I swore I'd never lay like a log
Bark like a dog
I was a teenage smog
Sewn to the sky
