Higher (all I Need Tonight)

Hot Chelle Rae

It feels like a dream
The way you're looking at me
Letting your eyes do the talkingThere's no need for words
You wear my Van Halen shirt
Dancing like nobody's watchingYou pull me close
And now I know
This is where I wanna stayYeah, frozen in time
Your lips on mine
I feel like we could float awayTake me higher and higher till I can't breathe
I don't need air when you're kissing me
You make my world feel like paradise
And you're all I need tonightTake me higher and higher, we're off the ground
There's no turning back and we can't slow down
We're falling in love at the speed of light
And you're all I need tonightI brush the hair from your face
My other hand on your waist
Just like a scene from a movieClothes start hitting the floor
Before we get through the door
I'm finally right where I should beYou pull me close
And now I know
This is where I wanna stayYeah, frozen in time
Your lips on mine
I feel like we could float awayTake me higher and higher till I can't breathe
I don't need air when you're kissing me
You make my world feel like paradise
And you're all I need tonightTake me higher and higher, we're off the ground
There's no turning back and we can't slow down
We're falling in love at the speed of light
And you're all I need tonightYeah, yeah, yeah, yeah
You're all I need tonight
Baby, yeah, yeah, yeah, yeah
You're all I need tonightTonight, tonight
Tonight, tonightTake me higher and higher till I can't breathe
I don't need air when you're kissing me
You make my world feel like paradise
And you're all I need tonightTake me higher and higher, we're off the ground
There's no turning back and we can't slow down
We're falling in love at the speed of light
And you're all I need tonightYeah, yeah, yeah, yeah

You're all I need tonight
Baby, yeah, yeah, yeah, yeah
You're all I need tonight
Yeah, You're all I need tonight
