Someone to Hold (Urban Mix)

April

A lonely night
I'm thinking of you
So glad to know the things that you told me
Falling in love, is the best thing to do
I need you so, I want you to hold me
Can't you see when the lights are low
All I want, all I need
Is a touch of your gentle heart
When your close to meChorus:
Someone to hold in the middle of the night
Someone to hold, feels so right, in the middle of the night
Someone to hold, someone just like youLook at me now
I'm lost in a dream
And I believe I'll always remember
The way you smiled and whisper to me
You got the need to hold me forever
Sometimes when I look in your eyes
All i say, all I do
Is to think of that special day
When I'll be with youChorusYou are the one that I'm dreaming of
If the timing is right, take me tonight awayJust take me awayChorus (4x)
