

Heaven's Blade

[COIL](#)

There's blood in the sun

There's blood in the sun

But I'm not afraid

I cut myself with Heaven's blade Inside the wound I found my wings

And walked away from this human skin I asked the earth to open up the sky

To get inside and live with me for life I stand before the sun

Rise up and see the shape of things to come

It's all the same

(repeated)

Just cut yourself

(repeated)

With Heaven's blade

Just cut yourself

With Heaven's blade

Just cut yourself

With Heaven's blade

(repeated)
