Every Word Is A Knife In My Ear

The Bravery

Every word from your mouth is a knife in my ear
Every thought in your head is like poison to hear

Every word from your mouth is a knife in my ear

Like a snake in a suit spitting into the air
With a tongue like a needle and we're shot full of fear
White picket teeth and a big red alert
The life of the party and we pulled up our skirt

It's like poison
It's like poison

Every word from your mouth is a knife in my ear
Every thought in your head is like poison to hear

Every word from your mouth is a knife in my ear

A fool is a devil and a devil's a fool
With a fork-tongue needle and you got us all fooled
A monkey doing tricks and we couldn't resist
If this isn't evil then I don't know what is

It's like poison
It's like poison

Every word from your mouth is a knife in my ear
Every thought in your head is like poison to hear

Every word from your mouth is a knife in my ear

It's like poison
It's like poison

Every word from your mouth is a knife in my ear
Every thought in your head is like poison to hear

Every word from your mouth is a knife in my ear
