

# Cardiac Arrest

## Bad Suns

I've been trying to keep my grip, yeah I think I'm over this  
I can hear it now, oh no  
Yeah, my tongue, I'll let it slip. Why'd I do those things I did?  
I can taste it now, oh no

I'll try my best. How much do I invest?  
Like cardiac arrest, high voltage in her lips  
I'll try my best. How much do I invest?  
Like cardiac arrest, high voltage when we kiss

My innards turn, your eyes, they roll. I'll be there to take the fall  
I can feel it now, oh no  
Same old story since day one, but I've got no place to run  
I can see it now, oh no

I'll try my best. How much do I invest?  
Like cardiac arrest, high voltage in her lips  
I'll try my best. How much do I invest?  
Like cardiac arrest, high voltage when we kiss

High voltage in her lips, they catch me when I slip
