Opinions

Mest

One, two, three, four
Frustrated with what's going on
I feel lost and I don't feel right
Tell me what I can do to make them happy?
But then will I be happy?
I can't do wrong, I can't do right
I feel so alone tonight
I wish someone could feel
And understand the way I think
They got me on the brink of self destruction
I wish someone could feel
People surround me fill my head with opinions
Of what they think is right
I can't do wrong, I can't do right
I feel so alone tonight
I wish someone could feel
And understand the way I think
They got me on the brink of self destruction
I wish someone could feel
I can't do wrong, I can't do right
I wonder where you are tonight?
I wish that you were here
You understand the way I think
You know they got me on the brink of self destruction
I wish someone could feel
I wish someone could feel
I wonder where you are? Whow, whow
