

Happy

Rihanna

Just as long as it makes you happy
If it makes you happy
Just be happy
Just as long as it makes you happy
If it makes you happy
Just be happy
Feel like spending time with you
Just doing absolutely nothing
That makes me happy
When you're at work
Putting on your t shirt and I love it
Absolutely love it
It's the smile of a child, it's your eyes, it's your hair
It's the touch of your skin that's what gets me there
It's also enticing, waking up from an nice dream
To a beautiful morning with you by my side, that's right
Just as long as it makes you happy
If it makes happy
Just be happy
Just as long as it makes you happy
If it makes you happy
Just be happy
Feel like walking through the sprinklers
Smelling every flower one by one
Makes me happy
Feeling like telling me you love me
Showing me you love me, baby
My pretty baby
It's the smile of a child, it's your eyes, it's your hair
It's the touch of your skin that's what gets me there
It's also enticing, waking up from an nice dream
To a beautiful morning with you by my side, that's right
Just as long as it makes you happy
If it makes you happy
Just be happy
Just as long as it makes you happy
If it makes you happy
Just be happy
It's like Saturday

Ohh, four day weekend
Hiding go seeking with you
Like we do, it's beautiful
Ohohohoh, ohohohoh
Just as long as it makes you happy
If it makes you happy
Just be happy
Just as long as it makes you happy
If it makes you happy
Just be happy
Just as long as it makes you happy
If it makes you happy
Just be happy
Just as long as it makes you happy
If it makes you happy
Just be happy
