Battle Cry

Ludo

oh, is there anything left to say?
you've been down so long you've forgotten to believe
(oooh)
you're watching it slip away
you've been kicked around, they got you on your knees
but they're all the same
they laugh and walk away
and they think you'll turn around and go back home
back at home
they said you'd never win
you don't just climb the hill and grab the crown
but they're all the same
scared of judgement day
and you're sure you'll turn around and go back home
but noooo
[chorus]
we are young
but we will never die
we won't give up
this is our battle cry
we will defeat the other guy
gonna sit there in defeat
you better suck it up boy and get up off the ground
you forget they made you bleed
they kicked you like a dog when you were down
if there's anyone
(anyone)
looking out above
(looking out)
then they'll never see us coming to reclaim
our glorious day
we are young
but we will never die
we won't give up
this is our battle cry
we dream the dreams
now we will fight the fight
we will defeat the other guy
and they'll lead the dreams

until they die inside
we'll raise their kids
and commandeer their wives
we'll curse their gods
and drink up all their wine
we will defeat the other guy
(will defeat the other guy)
we will defeat the other guy
(will defeat the other guy)
