

Romeo's Seance

Elvis Costello

Is anyone there I can talk to?
Give us a sign if you're with me
Can't you see that I'm dying to hear you
Everyone else has lost interest
And I'm all alone in this dream house
Though you're gone, I don't feel like crying
Romeo is calling you
Knock once or twice if you're out there
Send me a message, my sweetheart
When I'm out and about, I'll be coming to see you
It isn't easy to live with this matronly face
At the window, try to contact me
If you can see how I'm suffering
Romeo is calling you
Scatter the paper and thimbles
You can take care of the candles
An unplugged radio plays, she is close now
Me and my hand holding
Baby, you're walking the floor and the ceiling
And this is the song she dictated this evening
Romeo is calling
Romeo is calling you
