

You Come Through

[PJ Harvey](#)

We are waiting
For the summer
The sun will bring back
Treasures for us Come on my friend
Drink to good times
Golden wishes
To your health and mine You come through
For me
You come true
For me You be well
For me
You come through
For me I'll be lifted
On this our holiday
I'll take you my friend
I'll take you with me You come through
For me
You come true
For me You be well
For me
You come through
For me
