Beer In The Headlights

Luke Bryan

Honeysuckle in the air, breeze blowin through your hair
Hundred stars hangin high, under your spell
Tied up in every move you make, baby Im your DJ
Youre my favorite song, wont ya let me sing along[Chorus]
Sittin right here, out here, in the middle of nowhere
I swear I never seen, ever seen, nothin like you anywhere
I got the key turned back, windows down
Im turnin it up and youre spinnin around
Takin' a sip, swingin' your hips
Girl, youre lookin so fine with your beer in the headlightsHeart beatin like a drum, call me the lucky one
Shinin these high beams on you baby
Boots stirrin up the dirt, cotton field concert
You got the beautiful, I got the cooler full[Chorus]
Sittin right here, out here, in the middle of nowhere
I swear I never seen, ever seen, nothin like you anywhere
I got the key turned back, windows down
Im turnin it up and youre spinnin around
Takin' a sip, swingin' your hips
Girl, youre lookin so fine with your beer in the headlights[Chorus]
Sittin right here, out here, in the middle of nowhere
I swear I never seen, ever seen, nothin like you anywhere
I got the key turned back, windows down
Im turnin it up and youre spinnin around
Takin' a sip, swingin' your hips
Girl, youre lookin so fine with your beer in the headlightsWith your beer in the headlights
With your beer in the headlights
With your beer in the headlights
