

Let Me into Your Life

Flood

Let me into your life - Flood

This song is dedicated to all your sad and beautiful ladies

Hurt you, how could anyone hurt you, and darling tell me leave you, how could anyone, want to

You must forget him, yea turn way from your sorrows and let me love you, and I'll show you, I'll show you, i'll
show you tomorrow

Now listen to this : Just let me into your life, let me tear down the wall that is keeping you outside this heart of
me

Let me into your life, if I can't have you all then at least give me one little part of you - let me into your life

Trust me - Let your heart learn to trust me

Need me - That's the way that it must be

Just let me love you - Can't you see I was made to darling

Let me love you - Why are you so afraid to

Just let me into your life - Let me tear down the wall
That is keeping you outside this heart of me - let me into your life
if I can't have you all then at least give me one little part of you
let me into your life - Just let me into your life, make me part of your life
I will love you forever - if you let me into your life
