

Tired of Being Alone

Tarja Turunen

Once you dreamed of me, twice
You wish that I pull you out
You chose your life
And put me down
Still you dont understand Tired of being alone.
What you have dreamed
Is not what I am, so far
Let me be the one Please understand me how I am
But I dont want to walk alone
I need your hands to warm my soul Tired of being alone (2) I will do my best
To become your love
Ill try to feel the emptyness
In our hearts of so tired of being alone Tired of being alone
I want to feel
I need to fall in love with you Tired of being alone.
