

# Call Home

## Luckless

Didn't you know my life would fall  
Oh no, and now you've really gone and done it  
Was I waiting here too long  
Oh no, even the floor got cold  
Your eyes are watching while I turn the stone  
And the city trembles, the clouds unfold  
[Chorus:] And I wanna call home, to see if you're not alone  
And I wanna call home, to see if you're not alone  
Not alone, not alone

And still you somehow you grab a hold of me  
Spin me around a few times and let go of me  
Did you forget to be true to me  
Oh no, now I can see  
Your eyes are watching while I turn the stone  
And the city trembles, the clouds unfold  
[Chorus x3]
