

Evil Hearted You

The Yardbirds (With Jeff Beck)

Evil hearted you, you always try to lower me
With the things that you do and the words you spread against me
Evil hearted you, you will keep deceiving me
With your false smile and your mermaid songs
Smiling,deceiving,you flirt with me 'till there is no hope
Responding degrading, on my knees I try to befriend you
But I love you anyway and I wish you pity
Beside me and you'll see what you mean to me
Evil hearted you, you always try to lower me

With the things that you do
And the words you spread against me, over me
Evil hearted you, you always try to lower me
With the things that you do
And the words you spread against me, over me
What would you do without me,smiling,deceiving
You flirt with me 'till there's no hope
