

# Faith Alone

## Bad Religion

Heard a sermon from a creaky pulpit with no one in the nave  
I paid a visit to the synagogue and I left there feelin' blamed  
No one can tell me what to do  
They have not the capacity to answer me  
What the world needs now is some answers to our problems  
We can't buy more time 'cause our tender isn't valid  
If your soul needs love you can get consoled by pity  
But it looks as though faith alone won't sustain us no more  
Watch the scientists throw up their hands  
Conceding progress will resolve it all  
Saw the manufacturers of earth's debris ignore another green peace call  
No one could tell me what to do  
No one had the ability to answer me  
What the world needs now is some accountability  
We can't buy more time 'cause time won't accept our money  
If your soul needs love you can always have my pity  
But it looks as though faith alone won't sustain us no more  
What the world needs now is some answers to our  
problems  
We can't buy more time 'cause our tender isn't valid  
What the world needs now is some accountability  
If your soul needs love you can get consoled by pity  
But faith alone won't sustain us anymore  
Faith alone, won't sustain us anymore  
Faith alone, won't sustain us anymore
