

Let Me Out (Live in Los Angeles, 1978)

The Knack

one two three four let me out come and get me out 'cause i've been stuck in for too long
let me out out come get me out baby maybe be where i belong
the time is right for stepping out in the light
my cup is full and i'll be pulling the wool tonight let me out come get me out you know that she don't understand
let me out out come get me out baby i'm just living for the band
it's getting tighter and i'm feeling the bite
but i don't care because i'm getting my share tonight
tonight tonight tonight whoo let me out come get me out i'm just a prisoner of your love
let me out out come get me out baby i will never have enough
i guess i'm getting while the getting is right
she may be faking but i'm taking my chance tonight
