

Pretty Girl

Sugarcult

Pretty girl is suffering,
while he confesses everything
Pretty soon she'll figure out
what his intentions were about And that's what you get for falling again
you can never get him outta your head
And that's what you get for falling again
you can never get him outta your head chorus:
Its the way that he makes you feel
its the way that he kisses you
its the way that he makes you fall in love She's beautiful as usual
with bruises on her ego and
her killer instinct tells her to
be aware of evil men And that's what you get for falling again
you can never get him outta your head
And that's what you get for falling again
you can never get him outta your head Chorus Pretty girl
Pretty girl
Pretty girl is suffering
while he confesses everthing
pretty soon she'll figure out
you can never get him outta your head its the way that he makes you cry
its the way that he's in your mind
its the way that he makes you fall in love Its the way that he makes you feel
its the way that he kisses you
its the way that he makes you fall in love, love
