Advisory - the following lyrics contain explicit language:

And I'm thinking what's the deal
With the facts that they conceal
But I'm thinking what's the harm
With a bit of rhetoric and charmBut I can't quite comprehend
A beginning or an end
No I can't quite stomach thisYou and me we're gonna take
To the skies for common sake
We'll fly amongst the cirrus clouds
20, 000 feet we'll clock the crowdsAnd from that height we'll leak the lies
And unveil the damaged skies
'Cause we can't quite stomach thisLook, all I'm trying to say is
You're not getting any sleep tonightThe sun and the sea could power us
No longer cower in oil lust
Chernobyl is still a stain
Of the dangers of this gameI still can't quite comprehend
A beginning or an end
No I can't quite stomach thisLook, all I'm trying to say is
You're not getting any sleep tonightWe'll embark on our great voyage to the sun
And we'll be 90 million miles from anything or anyone
What are we waiting for?We depart for our great voyage to the sun
We'll be 90 million miles from anything or anyone
Just like the ocean we won't be pacific anymore
No longer in coexistence with other species, this is flawedYou're not getting any sleep tonight
