

I Just Wanna

50 Cent

that's the way, aha, aha, i like it
that's the way, aha, aha, i like it
yeah, aha, yeah!
this money is mine
look me! you love yourself and nobody won't love you
you stay right.. right mind?
that's what they told me then, so i was like?
then i'mma grind on my shine and tell momma i'm .. mind
oh now she like me, oh, oh, now they like me
oh no is? oh just wanna be ..
look three course meal, all i want is fast food
i'm gonna have fun, how about a ?
chorus:
i don't wanna love you
i just wanna unbutton your blouse and let your girls out
i don't wanna fuck you
maybe later on if you're free? you can?
only if you want to
we can get freaky, and freaky, than you ever did
only if you want to
we can get freaky, and freaky, and you can bring a friend.
some believe ?
..rappers sweating at a?.
for a mile on the night, my ? is on ?
..she's the project?
them hookers, always bring back memories
they all, like hey you remember me?
i certainly do, pull a curtain?
for free, she's on a?
i promise i don't love 'em, i don't? i don't pay?

i'm a pimp with principles, ..with visuals
my diamonds like?.
chorus:
i don't wanna love you
i just wanna unbutton your blouse and let your girls out
i don't wanna fuck you
maybe later on if you're free? you can?
only if you want to

we can get freaky, and freaky, than you ever did
only if you want to
we can get freaky, and freaky, and you can bring a friend.
i don't want a relationship, i just wanna have fun
in every position we can come up?
and my request is particularly?
i like to hear what you're thinking, not the laughing and drinking
girl, we can have a ball, we can do it all, moon shine, light out the sky and?
for me, anytime will be the right time
i'm sorta impulsive, kinda explosive
me, just take a little out of time in doses
don't want you addicted, just want you to keep it
you can? i'll be there?
chorus:
i don't wanna love you
i just wanna unbutton your blouse and let your girls out
i don't wanna fuck you
maybe later on if you're free? you can?
only if you want to
we can get freaky, and freaky, than you ever did
only if you want to
we can get freaky, and freaky, and you can bring a friend.
