

Silicone Grown

Faces

Wait a minute honey
I don't think the joke's too funny
No, I stayed up all night
Checking out the doctor's guide Wait a minute honey
Stop pretending you're a bunny
Well I might've guessed
You been to see a specialist I remember you said
That we gotta keep abreast of time
But obviously you don't know
Where to draw the line, well Don't try to tell me it's a what you been eating
Since when have you been forty-four around
Get on with the song, yeah Dig this, at the Moulin Rouge tell you baby
We could knock 'em dead
Just sign right here, all I need is ten percent Well, now you make me feel like a pimp in the White House
For a senator's daughter you're stealing all the headline news
All the headline news Oh shake me, shake me, shake me up all night long
We all need a laugh and I guess you're just the one
Well, you got more front than Haig Museum, oh
Oh home grown silicone
You really got the best of me You really got the best of me, woo who
