We Both Know

Ivoryline

We both know you can't plan something as real as this
It takes more than plans to feel like thisIf only we could know what we were getting into
And just what we would both mean to the other
I don't think I'll get much sleep tonightI am everything you're not
And it's exactly what you wanted
I am everything you're not
And it's exactly what you wanted, what you wantedWe both know you can't plan something as real as this
It takes more than plans to feel like this, it takes usAnd I hope that you find everything you thought you would
Everything you thought you would tonight
So I can get some sleep tonightI am everything you're not
And it's exactly what you wanted
I am everything you're not
And it's exactly what you wanted, what you wanted tonightJust go with your gut for one more night
Just go with your gut for one more night
Just go with your gut for one more night
Just go with your gut for one more nightI am everything you're not
And it's exactly what you wanted
I am everything you're not
And it's exactly what you wanted, what you wanted tonightWe both know you can't plan something as real as this
