

Colony of Birchmen (Live at Brixton)

Mastodon

This forest is growing faster than I can tell
Cell structure eats away at a massive swell
Seems, however, I'm a victim of circumstance
Hunt for ogres and dwarfs

Lion slicer
Run with death
Run with death

White faces coming closer with every step
Earth envelopes taking breath without happenstance
Carve my teeth out, ripping through the sheep's head curse
Hunter gatherer

Ridden from the caveRun with death
Run with death
Gone away

My heart's gone away
Taking everything
My heart's gone away
Take it nowRun with death
Run with death
Gone away

My heart's gone away
Taking everything
My heart's gone away
Take it now
