Runaway

Willie Stratton

VI: I will run my toe,
through your grassy mane;
and I'll run right down by the water's side,
where it still looks the same;
Got all these pieces,
and these keys and string,
and I'll run down by the water's side,
where I was a King;

C: So you built your boat
and you took your time,
to wrap up all your things in your cloth
and put it on your shoulder;
So you built your boat
and you took your time,
to wrap up all your things in your cloth
and put it on your shoulder;

VII: Well, you beat me up
and you broke me down;
and you took every fish that got caught in your net,
and you let me drown;
You still had a chance,
but you didn't mind,
you just took every fish that caught in your net
and you didn't waste time;

C: So you built your boat
and you took your time,
to wrap up all your things in your cloth
and put it on your shoulder;
So you built your boat
and you took your time,
to wrap up all your things in your cloth
and put it on your shoulder;

VIII: Well, I'll run my toe,
through your grassy mane;
and I'll run right down by the water's side,

where I was a King;

C: So you built your boat
and you took your time,
to wrap up all your things in your cloth
and put it on your shoulder;
So you built your boat
and you took your time,
to wrap up all your things in your cloth
and put it on your shoulder.
