# Tomorrow

## Gentleman & Ky-Mani Marley

Gentleman & Ky-Mani Marley - Tomorrow

Step out a your comfort zone
Nah decide fi stay home
Everybody got to seek their own
Everyone wants to reach, no one wants to roam

Even when dem try confound
Even when dem hold you down
Let dem know the world go 'round
Let dem know the world go 'round

Today I got to trod the straight and narrow
Wonder what the world will be tomorrow
Will it be joy or will it be sorrow
Who knows (who knows, who knows)

I wish I could fly just like an arrow
If I had wings just like a sparrow
Flying beyond the hills of ??, there goes

I make a search and find out
Seh wicked people never take no time out
Dem work 24/7 fi knock your shine out
You seek seh dem nah plan fi go take the crime out

Now the youths are willing to sign out
Nah reach the age of Amy Winehouse
Are you really planning to blow your mind out
Why you never think to seek Jah divine out

Think twice, before you go take the Nine out
Now you are falling hard, ?? want to climb out
Still here, my people crying out
Where the bad ones live, the good ones are dying out

Be careful fisherman how you throw your line out
The inspiration of the song is to lead the blind out
Love and liberation is what we rhyme 'bout

East, west, north and south

Today I got to trod the straight and narrow
Wonder what the world will be tomorrow
Will it be joy, will it be sorrow
Who knows (who knows)

I wish I could fly just like an arrow
If I had wings just like a sparrow
Flying beyond the hills of ??, there goes
(There goes, there goes)

The world is on the verge of change, hey
And nothing stays the same (nothing stays the same)
But if I sense you find it strange (hey aah)
It's just the part of what's ordained - hey

These are the times (these are the signs)
The fulfilment of prophecy
But we break down those walls (break down those walls)
Tek the be-would hypocrisy (cha)

Today I got to trod the straight and narrow
Wonder what the world will be tomorrow
Will it be joy, will it be sorrow
Who knows (who knows, who knows)

I wish I could fly just like an arrow
If I had wings just like a sparrow
Flying beyond the hills of ??, there goes
(There goes, there goes)

Today I got to trod the straight and narrow
Wonder what the world will be tomorrow
Will it be joy, will it be sorrow
Who knows (who knows)

I wish I could fly just like an arrow
If I had wings just like a sparrow
Flying beyond the hills of ??, there goes
(There goes, there goes)
