Convict Pool

Calexico

Convict pool, in the land of salvation
Is where you find this masterpiece
Of a right-wing kidney punchEscape, convict pool, escapeExecutions are nearly flawless
So riding forever in the deep
Or taking it into the shallow
Is not a problemEscape, convict pool, escape
Convict pool, escapeCheck the underwriter killers
For video surveillance of the convict pool
In the warden son's private collectionEscape, convict pool, escape
Social fool, we evadeI forget to mention
That the coping of this baby's like butter
So stand up and grind farEscape, convict pool, escape
Parental fools, we evadeTony and George, avoid the nipple
Protrusion on the wall
With a backside hurricane
Over the death box, we fallAnd escape, convict pool
Escape, social tool
Evade, courtroom duel
Escape
