

# Hard Life

TQ

Written by tq and mike mosleyIntroducing the hard life

As if you all ain't know about it

Just another one of them ghetto things

Hard life living in the diningroom(chorus)

When I think about the days go by

All the times

You wish that you could fly away

Into the clear bleu skies

Just to live the hard life

And when I think about the times we had

I remember good as well as the bad

I can hear sounds of laughter

When the lays sweet cries

In the hard lifeDear mister president

I was watching the news the other day

You talked about a whole lot of issues

But something about the neighborhood you never did

I tooke it for myself to change the channel

Figured out I was better of watching videos

Now you trying to get a little fool for my soul.

Late at night when they play to old tune(bridge)

I can't get no satisfaction another live lost on quick reaction

Only time I think about calm and relaxing is when I write a new song(chorus)Just a little some for my  
neighborhood

Holla if you hear me

Tough time in summertime feeling good

Remenise about my partners who past away

Just like little ronnie me and him and melinda

Just wanna be somebody

But to go now

Asked me how I feel about

Well I thank the lord who blessed him

So I sang about it(bridge)(chorus)(rap by e-40)(chorus - 3x)
