Just A Reminder

Craig David

Baby dry your weepin' eyes, just let me say
You can carry in the way of the world like a true queen
Baby, I'm not what you want, I want you to need
You've been travelin' alone for so long let me be there
So I can hold you in my arms
Keep you safe from harm
Every time you wonder, baby
What's goin' on
This is just a reminder to tell you that I still care
(About you woman, oh yeah about you lady)
This is just a reminder to tell you that I believe
(You're the only one who knows just how to save me
You're the only one who enters my world when it's goin' crazy)
I remember all the time, how you used to read my mind
If I told you where I'd be, girl you know where we were goin'
But everythin"s all different now but I think somehow
We can turn back the time like it was nothin'
Now I hold you in my arms
Keep you safe from harm
Every time you wonder baby
What's goin' on
This is just a reminder to tell you that I still care
(About you woman, oh yeah, about you lady)
This is just a reminder to tell you that I believe
(You're the only one who knows just how to save me)
(So baby let's just take this madness)
Throw it all far away, still the one I love and will always be that way
(Baby let's just take this madness)
It keeps gettin' in the way, don't want you to get away
(Baby let's just take this madness)
Throw it all far away, I don't wanna be alone
Without you girl, not another day
(Baby let's just take this madness)
Don't ever want to let you go, I can't let you go
This is just a reminder to tell you that I still care
(Oh yeah, no, no, no, no)
This is just a reminder to tell you that I believe
(Just a reminder)
(You're the only one who knows just how to save me

You're the echo who enters my world when it's goin' crazy)
This is just a reminder to tell you that I still care
(To tell you that I still care, yeah, yeah, oh no, no, no, no)
This is just a reminder to tell that I believe
(Just a reminder)
(You're the only one who knows just how to save me
You're the echo who enters my world when it's goin' crazy)
Just a reminder to tell you that I still care girl
(No, no, no)
Baby, just a reminder to tell you that I still care
(Da na, na, na, no no, no)
