

# Warriors

Gary Numan

I fall down  
No control somehow  
No help now  
My favor slides No one comes here  
And now I'm feeding strangers  
Thin air, like cold death, like cold death  
Like cold death, here in my heart I fell for so long for you all  
I fell for so long for you  
I fell for so long for you Come in, I'm the ghost  
Of the white faced clown  
She's gone, gone  
I won't look back, she's gone I'm old, so old  
This infection of time, my skin, age  
Shows no kindness, no kindness  
No kindness to me I fell for so long for you all  
I fell for so long for you  
I fell for so long for you
