Sleep In The Snow

Yellowcard

I took a flight headed North
I wasn't waiting anymore
And there I was hoping high
If I could only make you mine
I was safe
In my fortress alone
Then you came
And tore it all down
I wanted to show you
The depth of this dream
The one where I see you
And fall finally
But you're like the winters
That you've always known:
Warm on the inside, while I
Sleep in the Snow
I took a flight headed home
And maybe now we'll never know
But I would lose everything
If it would bring you back to me
I was safe
In my fortress alone
Then you came
And tore it all down
I wanted to show you
The depth of this dream
The one where I see you
And fall finally
But you're like the winters
That you've always known:
Warm on the inside, while I
Sleep in the Snow
(Ooooh, oooh...)

(Ooooh, oooh...)
(Ooooh, oooh...)
I've always run right through
The moments that count
But somehow with you I slow down

(Ooooh, oooh...)
And what ever happened
That drove you away?
I know now I can't make you stay
I wanted to show you
The depth of this dream
The one where I see you
And fall finally
But you're like the winters
That you've always known:
Warm on the inside, while I
Wanted to show you
All of my dreams
Things that I buried
And no one could see
But you're like the winters
That you've always known:
Warm on the inside, while I
Sleep in the Snow
You think
You can leave
Me here
But I know
You'll be back
Next year
You think
You can leave
Me here
But I know
You'll be back
Next year
