

# To Litigate

## The Bar and Grill Singers

To sue - or better yet to litigate  
For lawsuits are the love of my life  
Just don't make me go to trial  
I'll dream I'll get a case to litigate  
With venue fights and experts galore  
And pleadings to jam the file

Some attorneys think the goal of litigation is  
to be prepared for trial  
But avoiding jury verdicts is the essence  
of a litigator's style

And so, if jury work is not for you  
Remember you can litigate too  
The secret is not to try!

Review what other people litigate  
Pretending that we knew what to do  
If only we tried the case  
Construe the care law and the evidence  
Preserving every error of law  
Long after the case is through

We will challenge every ruling and we'll  
file a supersedes bond, too  
And no one will see a penny but the lawyers  
until everything is through

And when the case is finally cert denied  
We'll never put the blame on ourselves  
"Cause we're not the ones who tried  
You lose...appeal denied  
No shame...no blame  
The secret is not to try!
