

# Everybody

## Mr. President

Are you ready for tonight with your head on?  
C'mon and set your mind to it  
Are you ready for my style with your head down?  
Don't you want it? I just do it Cause we are right here for you, standing with your back on the wall (Just do it!  
Yo! yo! Just do it!)  
And it's so easy to do, turning up your back on the wall  
(Just do it! C'mon do it!) Everybody, Everybody, do your dance now (Do your dance, do your dance)  
Everybody, Everybody, take a chance now (Take a chance, take a chance)  
Everybody, see how they're movin (And do your dance)  
Everybody, see how they're groovin (C'mon take a chance) Are you ready for somebody to lean on? Pay  
attention to the ladies  
Give her anything she wants, turn your head on, Feel the spirit of the 80's Cause we are right here for you,  
standing with your back on the wall (Just do it! Yo! yo! Just do it!)  
And it's so easy to do, turning up your back on the wall  
(Just do it! C'mon do it!) Everybody, Everybody, do your dance now (Do your dance, do your dance)  
Everybody, Everybody, take a chance now (Take a chance, take a chance)  
Everybody, see how they're movin (And do your dance)  
Everybody, see how they're groovin (C'mon take a chance) Everybody (see how they're movin)  
Everybody (see how they're groovin) Everybody, Everybody, do your dance now (Do your dance, do your  
dance)  
Everybody, Everybody, take a chance now (Take a chance, take a chance)  
Everybody, see how they're movin (C'mon do your dance)  
Everybody, see how they're groovin (Everybody!) Everybody (Take a chance, take a chance)  
Everybody (Do your dance, do your dance)  
Everybody (Everybody!!)  
Everybody (Take a chance now!)
