

# Yesterday

## Mest

I said, "Sit back relax  
It's not the end  
We're gonna postpone it  
Put it off again" Our separate paths will lead us  
Different ways  
But the care remains  
It will always stay Yesterday's not all that bad  
Sorry, I could not make this last  
Yesterday's not all we have  
Sorry, I could not make this last "One thing I need from you  
That's honesty  
Please never lie to me"  
That's what she said to me One thing for sure is that  
I will be true  
In everything I do  
That's what I learned from you Yesterday's not all that bad  
Sorry, I could not make this last  
Yesterday's not all we have  
Sorry, I could not make this last Being on the road is tough on everyone  
Because you're here then gone, it takes so long  
Being on the road is tough on everyone  
Because you're here then gone, it takes so long Being on the road is tough on everyone  
Because you're here then gone, it takes so long  
Being on the road is tough on everyone  
Because you're here then gone, seems like it takes so long Yesterday's not all that bad  
Sorry, I could not make this last  
Yesterday's not all that bad  
Sorry, I could not make this last  
Sorry, I could not make this last  
Sorry, I could not make this last
