

Dreamstate Emergency

Mnemonic

Advisory - the following lyrics contain explicit language:

I have not slept for many days
Yet I have dreamt of the unseen
Now I have found this place in myself
I have dreamt of no control And then I will see what the hate, it can take
I will stand up to see what I really can be
I'll cry if I need to but I'll proceed to
A state of hate and to be a superior me I have dreamt of this for so long
I feel my inner self will grow strong And so I will break down, I'm blind to your ideas
I don't want to be, I can't stand the pain
And then I will see what the hate it can take
I will stand up to see what I really can be I have dreamt of this for so long
I feel my inner self will grow strong
If I can only be what they want
I'm me, exploding into history I dream of leaving this
Kill this and never come back
Never fuckin' return I dream of me, kill this, my dream
I dream of me, kill this, my dream
I dream of me, kill this, my dream
I dream, I dream of me I have not slept for many days
Yet I have dreamt of the unseen
Now I have found this place in myself
I have dreamt of no control And then I will see what the hate it can take
I will stand up to see what I really can be
I'll cry if I need to but I'll proceed to
A state of hate and to be a vision of me I have dreamt of this for so long
I feel my inner self will grow strong
If I can only be what they want
I'm me, exploding into history
