Love In The Natural Way

Kim Wilde

Written by ricky, kim & marty wildeWell it sounded like a whisper
But soon became a cry
And the moment that I touch you
I know the reason why - we got love
No union is stronger than a woman with a man
I'm gonna give love in the natural way
With everything I can
Never mind if things go wrong
You and I will still be strong
And how I love you nowOh baby, we're here tonight
We can make it last forever
Wen can make it last for life
Oh, baby, no matter what
I'm gonna give love in the natural way
With everything I gotAll times it can be gentle
And at times it can be cruel
It can treat you like a stranger
It can treat you like a fool
But tonight I wanna hold you
Cos tonight you're gonna see
I'm gonna give you love in the natural way
And keep you here with me
Lovin' like you've never known
Now at last we're on our own
And I still love you nowOh, baby, we're here tonight
We can make it last forever
We can make it last for life
Oh, babe, it's me and you
And it's a natural reaction
When you feel the way we do
What is left that's still unknown
Let's discover on our ownCos when love's the culmination
Of everything you feel
Well it's the only thing that's precious
It's the only thing that's real
