

# Miles Away

## Yeah Yeah Yeahs

As the cars go by under the sun like an enemy  
You wonder, you wonder, you wonder  
As a spider comes and looks at you like an enemy  
You wonder, you wonder, you wonder Well miles, miles away  
She's hurt few people in a better world  
Miles, miles away  
Dressed again in the hot water Well you're more beautiful than ever  
Looking in the car's rear view mirror The floor is hard uncomforted by the second time  
She wondered, she hungers, she hungers like a killers wife  
Oh as the cars go by, as the cars go by  
As the cars go by, yeah as the cars go by Miles, miles away  
She's hurt few people in a better world  
Miles, miles away  
Dressed again in the hot water Well you're more beautiful than ever  
Looking in the car's rear view mirror  
Well you're more beautiful than ever  
Miles, miles, miles, miles away  
Miles, miles away
