

Whatever It Takes

Hollywood Undead

I do whatever it takes to make it
Break through anything I'm face to face with
It's true, you gonna make me lose my patience
Cuz victory is mine and Immo take it So put your hands up high
And wave them side-to-side
And when I pull out the nine
You better wave bye, bye
So take a page from my book
Roll it up and get cooked
Watch these ladies get hooked
While all these hatters get shook
So put your hands up high
Now wave them side-to-side
Now when I pull out the nine
You better wave bye, bye
We gonna rise up to the top, we been through it all
Been to fucking hell and back, our backs against the wall
Got the dove grenade, flag on display
Every fucking critics gotta listen when we say I do whatever it takes to make it
Break through anything I'm face to face with
It's true, you gonna make me lose my patience
Cuz victory is mine and Imma take it Put your hands up high
And wave them side-to-side
And when I pull out the nine
You better wave bye, bye
So take a page from my book
Roll it up and get cooked
Watch these ladies get hooked
While all these haters get shook
So put your hands up high
Now wave them side-to-side
Now when I pull out the nine
You better wave bye, bye
So just understand nothing gets in my way
I can show you first hand if you got something to say
If you think you can hold me down you better think twice
Cuz I've been waiting for this moment everyday of my life
These fucking people always say the same old thing
But you can't slay or conquer the king

I'm from a nightmare but I'm living the dream
You need to back up if you're not with my team I do whatever it takes to make it
Break through anything I'm face to face with
It's true, you gon' make me lose my patience
Cuz victory is mine for the taken So put your hands up high
And wave them side-to-side
And when I pull out the nine
You better wave bye bye
So take a page from my book
Roll it up and get cooked
Watch these ladies get hooked
While all these haters get shook
So put your hands up high
Now wave them side-to-side
Now when I pull out the nine
You better wave bye, bye
You better wave bye, bye
You better wave bye, bye
You better wave bye, bye
You better wave bye, bye
