People Get Real

Saint Etienne

Get on the floor and look real sexySaw you and when I saw you
I thought this is real, this is real
Kissed you and when I kissed you
I whispered forever, foreverI love the way, I love the way you move
I love the way, I love the way you move
Just lose yourself
Lose yourself in circles of soundPeople get real

People get real

People get realKnowing, the way that we are feeling You told me that we'd turn clean, that we'd turned clean Talking, taking advantage

The other side of your dreams, of your dreamsDon't tell me this is precious

Don't tell me this is soulful Well you have to be

Have to be kidding me onPeople get real

People get real

People get realSo don't stop, don't stop believing

No and don't stop, don't stop believing

Just keep on, keep on believing it's herePeople get real

People get real

People get real

People get real
