

# Time Capsule (Intro)

[Steve Aoki](#)

Travel through a millennium histories like a time capsule  
Watching as empires come and go  
Legacy's being built and destroyed, built and destroyed  
And built again  
The further transcends time, is to find purpose  
To create, illuminate beyond dimensions, beyond boundaries  
And see what we cannot see, explore the unexplored  
To forge this new future, our neon future  
Neon future  
Neon future
