

# Souls of Black

## Testament

Oh can't you see that the world we live in  
Political lies are just corporate decisions  
They'll take away all the hopes, not their promises  
They'll put an end to the land of the livin' Look at the lost souls, they seem so black  
Look at the lost souls, souls of black They got control and the heart of a nation  
Social bribes seem so graciously  
As time goes by 'cause time as you can see  
Will slowly die, die for you and me Look at the lost souls, they seem so black  
Look at the lost souls, souls of black So put an end to this idolization  
Antagonizing so commonly  
Open your eyes 'cause the life is so plain to see  
Life goes on there's no guarantees Look at the lost souls, they seem so black  
Look at the lost souls, souls of black  
They're bleeding so black
