

# Replica

## Fear Factory

Huh!  
There is no love  
No love  
Huh! I am a duplication, innocently  
I was conceived so violently  
There was no love  
There was no love for me  
There was only hatred I am rape  
I am hate  
I am rape  
I am hate Every day I feel anonymous hate  
Forever in the shadow of disgrace I am rape  
I am hate  
I am rape  
I am hate Filled with pain  
Bruised and darkened soul  
Spare me from the  
Life that's full of misery I don't want to live that way  
I don't want to live that way There is no love  
Huh! Every day I feel anonymous hate  
Forever in the shadow of disgrace I am rape  
I am hate  
I am rape  
I am hate Filled with pain  
Bruised and darkened soul  
Spare me from the  
Life that's full of misery I am so filled with pain  
Bruised and darkened soul  
Spare me from the  
Life that's full of misery I don't want to live that way  
I don't want to live that way  
I don't want to live that way  
I don't want to live that way I am so filled with pain  
Bruised and darkened soul  
Spare me from the  
Life that's full of misery Spare me from the  
Life that's full of pain  
Spare me from the  
Life that's full of pain I don't want to live that way

I don't want to live that way  
I don't want to live that way

...
