Let's Not Talk About the Rain

SonicFlyer

Lets Not Talk About The RainA day and night with ghost of you
In cold and empty hotel room
We stay up late we stay apart
Cause I might break your fragile heart
Now that the summer`s gone again
We shall not talk about the rain
So wish me well if I was wrong
I know you hurt it wont be longI would do anything to stop these battles
I would do anything for all that matters
I would do anything for us
But not tonight
A warning light
Not again
Lets not talk about the rain
Not tonight
Not again
Lets not talk aboutA day and night with ghost of you
In cold and empty hotel room
We hide our eyes from time to time
Your memories` fading so do mine
Now if you`re scared dont look around
I hope we`re nowhere to be found
Im by your side I know you`re gone
For our sake I`ll carry onI would do anything to stop these battles
I would do anything for all that matters
I would do anything for us
But not tonight
A warning light
Not again
Lets not talk about the rain
Not tonight
Not again
Lets not talk about the rain
(Stay up late up late)
