

# Human Being Human

## Natural

Karma took the day off  
Keep your heads up  
I'm not joking  
They don't give you many  
I don't take any  
I don't know nothing, I can't lie  
I'm good inside  
I even cry sometimes  
I'm too real  
I'm too human, being human  
I'm too real  
Just a human, being human  
Being me  
I don't know what you'd call it  
Fear of falling  
Paranoia  
I watch were I'm walking?

And who I'm calling?  
You never do know, I can lie  
I'm good inside  
I even cry sometimes  
I'm too real  
I'm too human being human  
I'm too real  
Just a human being human  
Being me  
I'm too real  
I'm too human, being human  
I'm too real  
Just a human, being human  
Being me  
Just a human, being human  
Being me  
Being me
